## Взгляд в будущее

In the future , robots will change people. Robots will be doctors, teachers. Students and pupils will go to the museums and theatres by the computers-virtual, as today. Nanorobots will be able to travel through our bodies better that scientists and doctors. Only one or two people will have a car, because computer can drive us from Moscow to London, while we are sleeping.

( Batmanova S)

I think that our future will be interesting. Computer technologies will be cheaper. The Internet will be faster than now. In 50 years people will become better and cars will drive faster. ( Danilyk S.)

The Kremlin and St. Basil's Cathedral are masterpieces of ancient Russian architecture. The main Kremlin tower, the Spasskaya Tower, has become the symbol of the country. On the territory of Kremlin you can see old cathedrals, the Bell Tower, the Palace of Congress, the Tzar-Cannon and the Tzar-Bell, the biggest cannon and bell in the world. St. Basil's Cathedral was built in the mid-16th century in memory of the victory over Kazan.

### **Боже мой! Вчера - ненастье... (1855)**

**А.Майков**

Боже мой! Вчера - ненастье,  
А сегодня - что за день!  
Солнце, птицы! Блеск и счастье!  
Луг росист, цветет сирень...

А еще ты в сладкой лени  
Спишь, малютка!.. О, постой!  
Я пойду нарву сирени  
Да холодной росой

Вдруг на сонную-то брызну...  
То-то сладко будет мне  
Победить в ней укоризну  
Свежей вестью о весне!

### **The Bad Weather**

( перевод Батмановой С. 8 класс)

Oh my God! Yesterday weather was awful,  
And now- what a wonderful day!  
The sun and birds! Shine and happiness!  
The field is covered with dew and the lilac  
is in blossom...  
And you are dreaming in sweet bliss,  
You're sleeping my little baby!  
Oh, wait!  
I'll go and pick up some lilac  
And splash some cold dew  
On your sleepy face.  
How sweet it will be for me  
To win reproach with a fresh news of the  
spring!
